You can get those files onto your new Mac without having to restore the entire backup.. You can get those files onto your new Mac without having to restore the entire backup.. If you got a new Mac and decided to start over from scratch instead of using a Time Machine backup, you may have come across a moment when you realize that there are a few files or applications sitting in your old Mac (or in an old Mac Time Machine backup) that you need.

If you got a new Mac and decided to start over from scratch instead of using a Time Machine backup, you may have come across a moment when you realize that there are a few files or applications sitting in your old Mac (or in an old Mac Time Machine backup) that you need.
